

CPC30211 Certificate III in Carpentry

Student Course Guide

Course Code:	CPC30211
Course Name:	Certificate III in Carpentry
Course Type:	Accredited VET Course
Course Level:	AQF level 3
Course Location:	Level 1, 150-154 A'Beckett Street, Melbourne, VIC 3000 Unit 4, 149 Anderson Road, Sunshine 3020
Course Duration:	Fulltime: 52 weeks @ 20 hours per week 48 weeks class delivery 4 weeks Holiday
Enquiries	Phone: 93299430 Email: info@dellainternational.edu.au
Course Overview	<p>This qualification provides a trade outcome in carpentry, covering work in residential and commercial applications. Occupational titles may include:</p> <ul style="list-style-type: none"> • Carpenter • Carpenter and joiner <p>The qualification has core unit of competency requirements that cover common skills for the construction industry, as well as a specialist field of work.</p> <p>The construction industry strongly affirms that training and assessment leading to recognition of skills must be undertaken in a real or very closely simulated workplace environment and this qualification requires all units of competency to be delivered in this context.</p> <p>Completion of the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007) is required before entering a construction work site. Achievement of unit CPCCOHS1001A covers this requirement.</p> <p>Total number of units = 30 22 core units 8 elective units</p>
Credit Transfer and Recognition of Prior learning	<p>Della International College offers Recognition of Prior Learning (RPL) and Course Credit to students through the enrolment process.</p> <p>Della International College recognises qualifications issued by other RTOs.</p> <p>Please consult with the Campus/Compliance Manager for further information if you are unsure if either of these apply to you.</p>
COVID-19 provisions	<p>Due to the global COVID-19 pandemic, provisions are in place to ensure the qualification maintains necessary regulatory requirements.</p> <p>Students are informed in advance on how COVID-19 restrictions may affect their mode of study and learning procedures.</p> <p>In the event that there are lockdown measures in place and face-to-face delivery is not possible, students will be delivered online theoretical learning. Students are required to have computer and internet access at all times during their course. Practical delivery will resume once restrictions are lifted. Students are also required to possess steel cap boots at all times during their course.</p> <p>All student support services will be available to students, including the Academic Learning Support Officer via email, chat and one-on-one Zoom meetings where required.</p>

Student Course Guide

Sequence of Delivery and Assessment/ Course Structure	<p>This program will be delivered over 52 weeks.</p> <p>Learners are provided with learning resources, training manuals, assessment requirements. The structure of the course includes:</p> <ol style="list-style-type: none"> Classroom-based training sessions to develop the knowledge and theoretical understandings required to undertake activities within a potentially highly regulated industry. Classroom settings will ensure full access to computers, internet, whiteboards, workbooks and textbooks. Practical training and experience in a simulated environment allowing for training, practice and assessment to occur in an appropriate environment (subject to units). A Simulated environment is an environment that closely resembles the real workplace in its function and operation and provides access to a broad range of related Experiences, tools and materials This environment will allow students to develop and demonstrate their skills in relation to carpentry within appropriate simulated situations. During the practical sessions enough, time is allocated to students to perform the required tasks, practice their skills, reinforce their knowledge and prepare themselves for the practical assessments. Private / Out of Class Study - Students need to allocate self-study time per unit of competence to complete workbook activities and the associated review questions to enhance their understanding. This time is in addition to the structured supervised hours of training. <p>Delivery Weekly Hours</p> <p>The face-to-face delivery of this qualification will combine theory in classrooms and practical training in a simulated environment. In the event of COVID-19 restrictions, theoretical learning will be delivered online and practical delivery will resume once restrictions are lifted.</p> <p>Each week, students will attend 20 hours of face-to-face/online training and assessment.</p>
